MBR ROLAND ST. ELMO'S FIRE

Whatever you do, DO NOT compare our "St. Elmo's Fire" to other cinnamon-flavored spirits. Ours is like the name implies, full of natural cinnamon & cayenne and bottled at 100 proof. This

product is meant to impress those that love cinnamon & spice, and scare off anyone who even thinks it may be too much for them. The name directly ties to the little community that our distillery is situated in, St. Elmo, Kentucky. There's really only two ways to enjoy this; out of the freezer, or to spice up a cocktail. Either way, consider yourself warned.
