MBR TRUE KENTUCKY SHINE

Our “True Kentucky Shine” is an authentic, traditional moonshine mash of corn and sugar. This product is made in a similar fashion to our White Dog, except that we add sugar into the mash prior to fermentation. Due to the combination of the white corn and sugar, notes of apple peels and citrus are prevelant. The flavor is also slightly more neutral compared to the White Dog and proves to be a better mixer for most drinks.
