MBR KENTUCKY WHITE DOG

We affectionately refer to our “White Dog” as a Silver Bourbon. Legally it is considered a spirit, as it has not been aged in a new, charred oak barrel. However, just like our bourbon, we use local,

food-grade white corn, rye & malted barley, providing a noticeably floral flavor with some hints of spice from the rye. For those interested in learning what the spirit tastes like before aging, this is quite a unique representation of a white dog. Enjoy this neat, on the rocks, or as a unique base for crafting cocktails.
